

The background of the lower half of the page is a blurred image of a laptop keyboard, tinted in shades of blue and teal. A large, semi-transparent dark grey circle is centered in the middle of the page, partially overlapping the text.

**Proactive Assurance  
in an Accelerating  
Digital World**  
**AI Risk and Governance Services**

[www.ajollyconsulting.co.uk](http://www.ajollyconsulting.co.uk)

As we enter a transformative era shaped by rapid technological evolution, **Artificial Intelligence (AI)** stands at the forefront. Its adoption across industries is unlocking unprecedented opportunities, creating new markets, efficiencies, and innovations. Yet, as AI capabilities grow, so do the complexities and risks, particularly in cybersecurity, governance, and regulatory compliance.

Global regulators are moving quickly to establish guardrails. Frameworks such as the **UK GDPR, ISO/IEC 42001**, and the **upcoming EU AI Act** are placing heightened expectations on organisations to ensure safe, explainable, and compliant use of AI. Failing to meet these standards or correctly position yourself can result in reputational damage, financial penalties, and greater severity in operational disruptions.

**Guidance,  
Protection,  
Peace of Mind.**

# Where AJC Comes In

At AJC, we specialise in helping organisations navigate these emerging challenges with clarity, confidence, and control.

Our multidisciplinary team brings together over 500 years of combined experience across multiple industries, with specialised knowledge in AI risk, cybersecurity, governance, and regulatory alignment.

We are a team that not only draws on this experience but also places strong emphasis on staying ahead of emerging developments; an approach that has significantly enhanced our early success, predictive capabilities and adaptability in our AI service approach/implementation. In AI as in life one way will never fit all!

We support clients by:

- > Auditing and stress-testing AI systems, governance structures, and infrastructure
- > Identifying vulnerabilities, compliance gaps, and threat exposures
- > Delivering tailored, actionable remediation plans
- > Improving overall cyber resilience and procedural posture

In an environment where AI acceleration is matched by increased sophistication in cyber threats, our expertise becomes not just a value-add but a necessity. Risks such as data breaches, operational disruption, and regulatory sanctions are no longer theoretical. They are material, fast-moving, and evolving.

# 55%

of our clients have experienced cyber attacks over the last 10 years.

We can help you keep your  
business safe from cyber  
attacks and provide comfort  
that your technology is secure

# Our AI Security & Governance Services Include:

## Independent audit of AI and cybersecurity frameworks

With completion of over 130 audits last year, our auditors are seasoned and have experience reviewing complex architecture, providing clear, structured and current insights/analysis. This coupled with our extensive knowledge of AI architecture and models creates a service that you can trust in a landscape you can't.

## Evaluation of incident response and business continuity planning

Having tested and developed plans for a multitude of businesses our approach entails, assessment of preventive measures, redundant systems, rapid recovery strategies. Our tailored evaluations strategically position your company to anticipate, mitigate, and respond to both current and emerging threats in the rapidly evolving AI landscape.

## Gap analysis against leading global standards (e.g., ISO/IEC 42001, EU AI Act, NIST)

Our specialists benchmark your current systems, policies, and controls against recognised international frameworks. This analysis highlights compliance gaps, misalignments, and areas of improvement to support strategic alignment with evolving legal and ethical requirements.

## Executive-level reporting with clear, actionable recommendations

We translate technical findings into concise, executive-ready reports designed for board-level decision-making. These reports include prioritised action plans, risk summaries, and strategic guidance to support informed governance, resource allocation, and future-proofing efforts. Each recommendation is tailored to your organisation's operational context and risk tolerance.

## Why AJC?

What sets us apart is our **honest, proportionate, and practical approach**. We act as a trusted partner, working collaboratively with your internal teams to deliver insights that are both technically sound and operationally meaningful.

Whether you're preparing for regulatory scrutiny, strengthening your defences, or simply seeking clarity on your AI risks, AJC is here to guide you every step of the way.

# Stay ahead of the risk. Stay ahead of the future. Partner with AJC.
